

LISTA LUCRARI

Malware classification based on dynamic behavior, [George Cabau](#); [Magda Buhu](#); [Ciprian Pavel Oprisa](#), [2016 18th International Symposium on Symbolic and Numeric Algorithms for Scientific Computing \(SYNASC\)](#)

Multi-centroid Cluster Analysis in Malware Research, [Ciprian Oprisa](#), [George Cabău](#) & [Gheorghe Sebestyen Pal](#) ; [Advances in Intelligent Systems and Computing](#) (AISC, volume 674)

A New String Distance For Computing Binary Code Similarities, [Ciprian Oprisa](#), [George Cabău](#) & [Gheorghe Sebestyen Pal](#); Conference: Intelligent Computer Communication and Processing (ICCP), 2014 IEEE International Conference on At: Cluj-Napoca

Malware classification using filesystem footprints, [George Cabău](#); [Magda Buhu](#); [Ciprian Oprisa](#), [2016 IEEE International Conference on Automation, Quality and Testing, Robotics \(AQTR\)](#)

From Plagiarism to Malware Detection, [Ciprian Oprisa](#), [George Cabau](#), [Adrian Colesa](#); [SYNASC '13: Proceedings of the 2013 15th International Symposium on Symbolic and Numeric Algorithms for Scientific Computing](#)
