

Lista lucrarilor acceptate – CSSC 2016

1. *Kinga Budai* **Learning Relations from Semantic-based Vector Similarity**
2. *Cristian Jora* **Evolutionary Community Detection in Dynamic Networks**
3. *Cristina Radulescu, Mihaela Dinsoreanu* **Automatic extraction of concepts and relations in medical texts – UTCN**
4. *Stan Marius Daniel* **An approach to implementing the traffic rules using a reasoner – UTCN**
5. *Crisitan Groza, Dan Rosca* **Automatic adaptation of mining and simplification parameters for process mining –UTCN**
6. *Ardelean Ioana-Mirela, Bardar Alexandru, Marginean Madalina* **Meteorological Time Series Forecasting From Noisy Data-UTCN**
7. *Ionut Indre* **Detection and Prevention System against Cyber Attacks and Botnet Malware for Information Systems and Internet of Things Devices – UTCN**
8. *Ionut Oliviu Stoica* **Human Activity Recognition and Monitoring for Elderly People – UTCN**
9. *Stefana Chirila, Camelia Lemnaru, Mihaela Dinsoreanu* **A Service Brokering and Recommendation Mechanism for IoT devices –UTCN**
10. *Crisan Madalina* **A Hybrid Evolutionary Approach to Prtotein Structure Prediction UTCN**
11. *Madalina Mandy Nagy* **Reconciliation of conflicting medical opinions regarding Parkinson's disease using argumentation protocols and textual entailment –UTCN**
12. *Marius Nicolae Oltean* **Building Annotation Rules from Romanian Description of Endoscopies –an NLP free approach with GATE support -UTCN**
13. *Popa Oana Maria* **Mining Arguments from Cancer Documents Using Natural Language Processing and Ontologies –UTCN**
14. *Rudolf Kovacs* **Experiments on interconnecting non-smart medical devices using Wireless Sensor Networks –UTCN**
15. *Petrinca Daniela Paula* **Parallel Implementation of a Model Checker for Discrete Time Markov Chains UTCN**
