Lista lucrarilor acceptate – CSSC 2017

1. *Andrei Oltean, Carmina Codre* **Product Classification using Deep Neural Networks**

2. *Cosmina Mendoiu, Sergiu Blaga* **Hyperspectral and Multispectral imaging – a state of the art comparison**

3. *Faluvégi Ágota, Furdui Andrei* **Industrial Process Flow: False Positive Reduction In AOI Error Detection**

4. *Bogdan Paul Fazakas, Ovidiu Claudiu Iuonas* **Collaborative learning tools for formal and informal engineering education**

5. *Iulia Ungur* **A prediction system for analyzing plant survival rates using the Version Space Algorithm**

6. *Lenuța Birtoc* **Aspect-based Sentiment extraction in Romanian Language**

7. *Boda Ioana-Cristina* **An approach to searching concepts in a text based on a training set**

8. *Andrei Mihai Rad, Tudor Horea Popa* **Problem-based learning and project-based learning concepts and their applications to engineering education**
